

NVMHA Rep Tryout - Declared Positions Policy

Apart from the U11 division, all other player positions (forward, defence, and goalie) are declared in advance of Rep tryout's at the time of registration. Players are evaluated based on competency playing these declared positions and are placed into Rep working groups and eventually Rep teams base on these positions.

Players are not permitted to tryout for multiple positions or switch positions during the rep tryout process.

Players who permanently and purposefully switch positions once they have achieved a position on a Rep working group or Rep team will be automatically moved to " C " division team. (** Only at a coach's discretion, from time to time players will be moved alternating between forward and defence to strengthen work groups / teams and display player qualities, this has no bearing on the above policy)

Note: Goalies are restricted to playing in net only and cannot be rostered or play in games as a skater at any position as per PCAHA rules for Rep hockey.
